Art Unit: 1618

Claims 1-3 and 5- 6 are presented for examination.

The amendments and remarks filed on January 8, 2007 have been received and entered.

Claims 1-3 and 5-6 are rejected under 35 U.S.C. 103 (a) as being unpatentable over Wallace et al. (5,166,317) and WO 00/32197 for the reasons set forth on pages 2 and 3 of the office action of May 17, 2006.

Applicant's arguments and remarks have been carefully considered, but are not deemed to be persuasive. Applicant in his remarks argues that the claimed compounds are small molecules with neurotrophic activity in comparison with the larger neurotrophic factors used by the prior art for the treatment of dry eye. The allegation is not well taken. There is no evidence of record to demonstrate that different neurotrophic factors cannot be used for the treatment of dry eye syndrome. There is also no evidence of record that the size of compounds with neurotrophic activity can influence their treatment ability for the treatment of dry eye. Applicant's arguments regarding the dry eye occurring in the back of the eye in the prior art and dry eye of the front of the eye of the instant application have been noted. Applicant is reminded that the claims of the instant application are drawn to the treatment of dry eye in general. Furthermore, there is no evidence of record to demonstrate that the dry eye can be treated differently depending on the location of such disorder in the eye. Applicant has presented no evidence to establish the unexpected or unobvious nature of the claimed invention, and as such, claims 1-3 and 5-6 are properly rejected under 35 U.S.C. 103.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
